New Product Newsletter

Following NAMM and ISE this year, the number of Dante-enabled products available on the market has surpassed the astounding 1,000 milestone! As the Dante family continues to grow, we would like to take the time to formally introduce some of the newest Dante-enabled products.

For more information on each of the products listed below, click on the product headers.

Take a look at all of the Dante-enabled products added over the last 90 days by visiting our [New Products](#) page.

### **Allen & Heath - dLive C Class Series**

dLive C Class remains true to the core dLive design mission to create a digital mixing system that makes the most sophisticated mixing challenges feel elegantly simple.

### **Ampetronic - D Series**

The D Series represents the global benchmark for digital audio hearing loop systems.

### **AMX - Enova DGX Series**

The Enova® DGX Digital Media Switchers allow you to take video from a large number of sources and distribute them to displays across a building.

### **ASL Intercom - Enchorus Series**

With Enchorus, users can leverage a professional, flexible, and scalable Dante solution for stage applications, production studios, and other pro A/V installations.

## **Attero Tech - unHX2D**

The unHX2D is a Dante-enabled HDMI de-embedder/embedder designed to bridge 2-channel PCM HDMI audio to/from a Dante audio network.

## **Biamp - TesiraFORTÉ DAN Series**

Tesira is Biamp's flagship audio and video platform, and a true Networked Media System — uniting the A and V of the AV industry. The Dante-equipped (DAN) models allow you to interface with other audio devices that communicate over Dante.

## **Bose Professional - ControlSpace EX**

The ControlSpace® EX conferencing solution is a Dante™-based processor and under-table endpoint system designed to streamline the implementation of conference room audio through seamless microphone integration, comprehensive connectivity from one DSP model, and simplified software configuration

## **Clear-Com - Eclipse HX Series**

Eclipse HX-Omega, -Median, and -Delta Matrices provide an ultra-fast, flexible and scalable communications backbone for point-to-point and conference communications, supporting thousands of user connections on a networked, 64-matrices system.

## **DiGiCo - SD12**

The SD12 is set to raise the bar in terms of what users will now expect from a compact, affordable, multi- application digital console.

## **Extron Electronics - AXI 44T & 22T**

The Extron AXI 44T and 22T are quarter rack width audio interfaces for integrating four mic/line sources onto a Dante™-enabled audio system.

## **Ferrofish - A32 DANTE**

The intuitive operating concept and the redundancy options, as well as the multiple submix and routing possibilities, make the A32 DANTE an ideal component of every Dante interconnected system.

## **JBL - Intonato 24**

The JBL Intonato 24 Monitor Management Tuning System provides easy setup, automated calibration and comprehensive control of professional monitoring systems.

## **Lynx Studio Technology - Aurora (n) Series**

The Aurora (n) line of A/D and D/A converters defines a major leap forward in the performance level, flexibility, channel count and features available in the converter/interface market.

## **MC<sup>2</sup> Audio - Delta Series**

Delta Series offers the assurance of MC<sup>2</sup>'s highest quality audio power amp technology with future proofing via the inclusion of simple to use digital audio networking.

## **MONACOR - WALL-05DT**

The MONACOR WALL-05DT Dante speaker is particularly suitable for commercial applications in the professional sector.

## **Powersoft - Quattrocanali Series**

This new 1RU four-channel amplifier platform packs a serious punch, delivering crisp sound and sustained output volume, making it ideal for applications such as bars, restaurants, retail outlets and fitness centers.

## **RAM Audio - V Series**

RAM Audio's new V Series amps devices feature two or four channel models, ready for rough handling in the touring world.

## **RTS - ROAMEO**

ROAMEO from RTS is a professional, easy-to-use and future-proof wireless intercom solution.

## **Sennheiser - Digital 6000**

Sennheiser's first digital two channel solution in one rack. As precise as the top-of-the-range wireless Digital 9000.

## **Shure - IntelliMix P300, ANIUSB-MATRIX and ANI22**

The **IntelliMix P300** Audio Conferencing Processor offers IntelliMix DSP algorithms optimized for audio/video conferencing applications.

The **ANIUSB-MATRIX** USB Audio Network Interface complements the existing ANI4IN, ANI4OUT, and ANI22 products.

The **ANI22** device can bring up to two line / mic signals onto or from a Dante network for easy audio routing and convenient browser-based remote control.

## **Studer - D23m Digital I/O System**

D23m serves as a scalable, modular I/O frame providing cost-effective inputs and outputs with maximum flexibility while maintaining the well-known Studer sound quality.

## **TASCAM - SS-R250N and SS-CDR250N**

The **SS-CDR250N** and **SS-R250N** are networkable solid-state/CD recorder/players with a variety of remote control options for

professional applications like in broadcast studios or fixed installations.

## **Visionary Solutions - PacketAV Duet**

PacketAV™ DUET is nothing short of a paradigm shift for networked AV. True convergence is finally here; a single platform to support Dante™ & Video over IP.
